Topic: My school

To my dear sponsor,

It's a great joy for Schmide to talk to you  
about her school. Before she starts how  
are you and your family? By her side,  
everything's very fine. She makes part of  
"Bethleem de Cotin" school. A nice  
school in the area where she's living.  
Parents who want their children learn  
something they send them to this school,  
even if they have no money. There are  
several classrooms in the school, library  
for the children reading. The children  
are always glad. That's all she was  
telling you about her school. She  
wants to thank you for the way that  
you help her. She hopes God will  
bless you more every day.
